

News from Rummikub

1. Rummikub On Line

A new meaning to our Slogan 'Brings People Together' – Now it has new global meaning – with the Audio Video Technology – and the great play value of Rummikub . (See the other players , Chat , Talk with).

– is already on air since February 2009 .(www.rummikub.com) Aside of the fact that it is 'based' on the most powerful gaming engines in the world – it has the following features :

- a. allowing players from anywhere to play against people everywhere ,.
- b. giving players the option to chose with who they want to play - invite friends or make friends or joining existing 'rooms' as players or as viewers . they can also choose the topic discussed in the room and the environment they play in.
- c. enabling players to see each other and talk to each other (as an option) while playing
- d. running Championships – ranking players - choosing the first online country's champion .
Wonderful opportunity for promotion for distributors

2. **e-Rummikub** – hand held game . was launched in 2007 for the player 'on the go' (in the train, car , airplane , etc.) allowing player to play against the computer or against 1, 2 or 3 'robot' players . It also allows you to play against another human player (on same e-Rummikub games – by making your move and giving the console to your opponent .

3. **Nintendo DS** – Following the e-Rummikub which was launched in June 2008 . This is one of the most popular hand held console in the world . Millions of this consoles were sold worldwide and players can play against the console or against other players using their own DS . (please note that the other players do not need to buy a cartridge of their own ! they just download the software for the game from their friend) up to 4 players can play against each other - this is one of the only hand held games with such a feature .

4. **i-Phone** – July 15,2009 was the official launch of the Rummikub on i-phone. This State of Art – mobile phone approved Rummikub for its users World wide – and in the first day of the Launch in Holland it became of the 10 Top paid applications .

Information about the Rummikub i-phone application you can find on <http://www.rummikub-iphone.com>

There you will find a button (top of the page) which will guide you to the iTunes store where you can download at the cost \$5.- for lifetime .
